-SEE OFFICE ACTION ON THE FOLLOWING PAGES--

Prosecution is reopened in view of a finding of new grounds for rejection:

Claims 45, 50-53, 57, 58 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 45, 50 and 57 "Acrylates" is vague; it is not defined in the specification.

Claims 43-62, 64-67 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the polymer of EPA 590604, does not reasonably provide enablement for any "Acrylates" polymer or polymers containing any amount of ethyl Acrylate, methyl methacrylate, methacrylic acid and acrylic acid. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. On page 2 last paragraph bridging to page 3 applicants disclose that the invention hinges on the polymer of EPA 590604. No other is specified.

No claims allowed.

Any inquiry concerning this communication should be directed to Edward J. Webman at telephone number 571-272-0633.
